

K-LOVE serves my local community by offering alternative music that is positive, encouraging, and is something my son can safely listen to each day. If K-LOVE were replaced, there would be many people without a station to listen to. For me, K-LOVE is part of my daily routine and, if it were replaced, I would most likely stop listening to the radio altogether. K-LOVE is in the public interest. People want "clean" radio to listen to. Plus, this is not a station that requires a "7-second delay." This is a station that you don't need to regulate. Please do not give up K-LOVE in my area in order to support a LPFM station. Thank you.
